I am a 5th semester Information Systems student at Surabaya State University with a strong interest in data analysis and data-driven decision making. I am a fast learner with good analytical thinking, effective communication skills, and the ability to work collaboratively in team environments. I have experience using Python for data processing and analysis, along with basic SQL, spreadsheets, and web technologies such as HTML, CSS, and JavaScript. My academic background has equipped me with an understanding of business processes, system analysis, and how data can be transformed into actionable insights. I am highly motivated to grow as a Data Analyst Intern by contributing to data analysis, pattern identification, and supporting strategic decision-making through real-world data.

EDUCATION

Universitas Negeri Surabaya

Faculty of Engineering

- GPA: 3.81/4.00 – Field: Information System
- Relevant Coursework: Data Analysis, Data Visualization, Machine Learning

Surabaya, Indonesia

August 2023 – present

Studi Independen Studi Independen Celerates Acceleration Mastery Program

Data Science and Generative AI

Jakarta, Indonesia

September – December 2025

The Celerates Acceleration Mastery Program, an initiative by PT Mitra Talenta Grup (Celerates), is designed to equip students with project-based learning outside regular coursework while remaining fully credited academically. The program provided comprehensive exposure to data science, machine learning, and generative AI, with a strong emphasis on analytical thinking and real-world applications.

- Learning objectives: 1) Data Science and NLP Fundamentals; 2) Statistical Thinking for Data; 3) Python, Git, and Streamlit for Data Analysis; 4) Applied and Practical Machine Learning; 5) Applied Deep Learning and Generative AI; 6) Prompt Engineering and AI Application Development.

LEADERSHIP EXPERIENCE
